SUMMARY

Passionate and adaptable student with a strong foundation in Java and data structures. Enjoys solving real-world problems and thrives in collaborative environments. A Quick learner with a drive for innovation and continuous growth.

EDUCATION

Bachelor of Technology

Nov 2023 - Present

Dr. N.G.P Institute of Technology

- Major in Computer Science and Business Systems.
- CGPA – 6.9(6th Semester).

Higher Secondary Education

June 2022 - May 2023

SRI Bharathi Matriculation Higher Secondary

- School Relevant coursework in Computer Science with 60%.

SSLC

June 2020 - May 2021

KG Matriculation Higher Secondary School

- Relevant coursework in Equitable Education System.
-

INTERNSHIPS

Sri Nandha infotech, Coimbatore

July 2025 - August 2025

- Gained hands-on experience in UI/UX, focusing on frontend development and web application design.
 - Worked on Figma, API integration, and server-side logic for web applications.
 - Enhanced creative thinking skills through real-world project.
-

PROJECTS

Farm to Home

- Worked on connecting farmers directly to consumers by simplifying farm-to-door delivery.
- Assisted in planning collection, sorting, and delivery processes for fresh produce.

AI Powered driver monitoring system

- Developed an AI-based system to detect driver drowsiness and distractions in real time.
 - Implemented computer vision techniques to monitor facial landmarks, eye closure, and head movement.
- Generated alert notifications to enhance road safety and reduce accident risks.

EcoTrack – Carbon Footprint Tracker

- Developed a full-stack EcoTrack web application using Python, Flask, PostgreSQL, HTML, CSS, and JavaScript to monitor and analyze users' carbon footprints.
- Implemented secure authentication, interactive dashboards, carbon emission tracking, AI-powered sustainability recommendations, and an admin management system.

Smart Energy Meter – Blockchain & IoT

- Worked on a blockchain-based smart energy meter using ESP32/Raspberry Pi concepts, private blockchain, Proof of Authority and Solidity smart contracts.
- Focused on secure meter transactions, tamper-resistant records, automated billing and real-time energy monitoring.

Food Time – Restaurant UI

- Designed a restaurant-focused UI in Figma with a clear, user-friendly flow for browsing food items and navigating the ordering experience.
 - Applied UI/UX principles, components, Auto Layout, typography and visual consistency to create a polished restaurant application interface.
-

SKILLS

- Programming Languages: Java, python.
 - Web Development: HTML, CSS, JavaScript, PHP.
 - Databases: MySQL.
 - Tools & Platforms: VS Code, MS Word, MS Excel, PowerPoint.
 - Development Tools: Git, GitHub, VS Code, Visual Studio, Android Studio, Figma
 - Systems & Platforms: Windows, Linux, Ubuntu, Kali Linux, VirtualBox.
 - Cybersecurity: Cyber Security Fundamentals, Ethical Hacking Fundamentals, System/Security Awareness.
 - Cloud: Cloud Computing Fundamentals.
 - Computer Hardware & Software Troubleshooting: Diagnosing slow PC, driver problems, OS errors, hardware failures, BIOS problems, system setup.
 - Productivity: MS Word, MS Excel, PowerPoint.
 - Soft Skills: Adaptability, Quick Learning, Effective Communication & Active Listening.
-

ADDITIONAL INFORMATION

- **Languages:** English, Tamil, Japanese (ongoing), Hindi (write and read).
- **Certifications:** NPTEL certificate for Cloud computing with 53%, Cyber security and Ethical hacking (Ongoing).
